From project brief to confirmed order

A clear information flow helps buyers compare options and move faster.

1 Share the brief

Product type, quantity, destination, target date, logo, and packaging needs.

2 Match the product

Confirm the relevant SKU, material, color, construction, and decoration scope.

3 Review the sample

Align on appearance, dimensions, logo placement, and packaging before bulk production.

4 Confirm the order

Finalize quotation, payment terms, schedule, and shipping basis in the proforma invoice.

Customization scope

- Logo placement and decoration method
- Material, color, lining, and trim selection
- Dimensions, internal layout, and pocket structure
- Handles, straps, zippers, hardware, and accessories
- Retail, bulk, or project-specific packaging

What to include in an RFQ

- Target product, reference photo, or WGX SKU
- Estimated quantity and destination market
- Required delivery date or buying window
- Logo artwork and preferred decoration
- Packaging and labeling requirements
- Any testing or compliance requirements

Send us your project brief

We will review the product requirements, identify the missing information, and confirm the next step for product matching, sampling, or quotation.
